

WE HOLD WHAT WE BUILD

Drywall and carpentry across Sweden and Denmark

Two separate entities, one operating standard. Strovex delivers interior walls, ceilings and carpentry as a subcontractor to main contractors, and full general construction for property owners and private clients.

How we work

Plumb, level, square	No exceptions. We fix our own defects on our own time.
Straight talk on price and time	You hear about a slip the day we know, not on the invoice.
Cleaner than we found it	Dust control and daily clear-down on every occupied site.
One standard, two countries	Same tolerances, same documentation, either side of the sound.

Engagement models

Subcontract	Wall and ceiling packages priced per m2, tendered against drawings.
Labour supply	Vetted drywall and carpentry crews on day or weekly rates.
General contract	Full delivery for renovations and fit-outs up to 15 MSEK.
